

Orhan Automotive is committed to continuously provide innovative engineered solutions that meet and exceed customer requirements and expectations in quality, value, delivery and service, we shall achieve this by;

- ❖ Continuously improving our products, manufacturing processes and management systems by working closely with our customers, ensuring the active participation of all our employees and encouraging strategic supplier partnerships.
- ❖ Maintaining and ensuring compliance of our Orhan Business System (OBS) to IATF16949, all relevant customer specific requirements and applicable statutory- regulatory requirements throughout our global organisation and supply chain.
- ❖ Striving to achieve world class performance, adopting a 'Zero Defect' philosophy, utilising defect prevention rather than defect detection tools & techniques.
- ❖ Setting objectives and performance targets for processes defined within the OBS to continually measure and improve their effectiveness to enhance business performance.
- ❖ Ensuring the selection of raw materials and manufacturing processes that ensure the protection of the environment.
- ❖ Ensuring the Quality Policy is communicated to and understood by our employees.
- ❖ Continually monitoring the effectiveness of this policy at all management levels, through a process of structured performance reviews.
